Projects

Personal Finance Tracker

GitHub

- Built a full-stack expense management application using Node.js, Express.js, MongoDB and TypeScript.
- Implemented JWT authentication and REST APIs for secure expense and budget management.
- Designed an interactive dashboard with graphical visualization of financial data.

Linear Regression From Scratch

GitHub

- Derived and implemented Simple and Multiple Linear Regression using the Normal Equation and matrix calculus.
- Implemented prediction metrics (MAE, MSE, RMSE and R^2 Score) manually using NumPy.
- Verified implementation against Scikit-learn with matching results.

Technical Skills

Languages: C++, Python, TypeScript, HTML, CSS

Backend: Node.js, Express.js

Database: MongoDB

Libraries: NumPy, Pandas, Scikit-learn

Tools: Git, GitHub, VS Code, Google Colab

Coding Profile

- Solved **100+** Data Structures and Algorithms problems.
- Comfortable with Graph Algorithms, Dynamic Programming and Recursion.
- Strong foundation in algorithmic problem solving using C++.

Education

National Institute of Technology Warangal

2025–Present

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.76

Relevant Coursework

Data Structures and Algorithms

Machine Learning

Areas of Interest

Machine Learning • Data Structures and Algorithms • Backend Development • Artificial Intelligence
